At a meeting of the board of education for Keytesville village school Friday night it was decided to have a nine-months' school the coming term. The board also cut down the rate of taxation on the sinking and interest funds from 45 to 20 cts. in the \$100 valuation, leaving the total for all purposes at \$120 instead of \$145 on the \$100 valuation as it has been for several years past. The outstanding bonded debt of the district is now \$5,500.

For Sale.

The farm known as the O. P. Dearmin, farm 4 1-2 miles north-east of Brunswick, containing 60 acres, more or less. A good four-room house, a good well, with a good pump, two acres in orchard, a barn and smokehouse, blacksmith-shop and a good coal bank 30 feet from surface on the place. Will sell for \$50 per acre if sold at once. Possession given for every thing except land as soon as deal is closed. Enquire of Manyuel Dearmin, Keytesville, Mo.

The Kansas City Drivers' Telegram quotes C. K. Mauzey of Rothville as being of the opinion that the high price of corn will add thousands of acres to the corn area this season. "When we consider corn prices and compare them with the price of live stock," he said, "it behooves us to put in more corn, and if the price on fat cattle does not go higher we can sell the corn and make money at that. It really looks as if corn prices would hold up. Of course if we raise a big corn crop this season corn prices will go down, but I do not believe that the price will be down where it was a few years ago. There is too much demand for corn now, and more of it is being fed than usual. If it should get down to 40 cts. a bushel, farmers would undoubtedly hold it. In my neighborhood farmers have plowed up more sod ground than usual and we will put more acres in corn than last year. Planting is under way and the ground so far has been in excellent condition."

The COURIER is glad to learn that the honorable county court is considering the advisability of making extensive repairs to the courthouse. They are badly needed and we hope to see them become a reality. It is false economy to permit any public building to get of repair.

The county board of appeals was in session Monday and Tuesday to hear the complaints of those whose assessments had been raised by the county board of equalization, which had increased the brokerage in the the county about \$80,000. Something like \$20,000 of this amount was stricken off, by the board appeals, leaving a net of gain in brokerage not far from \$60,000. In addition to this the board of equalization increased the assessment on classes 3, 4 and 10, consisting of household and kitchen furniture, machinery, etc., 25 per cent all over the county. Assessments were also equalized as far as possible on farm lands, town lots, horses, mules, cattle, hogs, sheep, etc., in the various townships and will make quite a neat sum of increase on the items named.
